

## **MRI SAFETY BOOK TEXTBOOKS**

The internationally acclaimed series, the **Reference Manual for Magnetic Resonance Safety, Implants and Devices: 2012 Edition (620+ pages; ISBN-10, 0-9746410-8-1; ISBN-13, 978-0-9746410-8-9)**, continues to be the most indispensable MRI safety textbook for radiologists, MRI technologists, and facility managers. This textbook includes updated guidelines and recommendations from the latest information in the peer-reviewed literature as well as documents developed by the International Society for Magnetic Resonance in Medicine (ISMRM), the American College of Radiology (ACR), the Food and Drug Administration (FDA), the National Electrical Manufacturers Association (NEMA), the International Electrotechnical Commission (IEC), the Medical Devices Agency (MDA), and the Institute for Magnetic Resonance, Safety, Education and Research (IMRSER). Features of the 2012 Edition include patient screening forms in English and Spanish and guidelines for scanning patients with electronically-activated devices.

- Section I** presents fully updated safety guidelines and recommendations.
  - Section II** has the latest information for implants, devices, and materials tested for the MRI environment.
  - Updated information pertaining to ***MRI Contrast Agents and Nephrogenic Systemic Fibrosis (NSF)*** is included along with websites to monitor emerging findings.
  - An **Appendix** provides website information for more than 250 biomedical companies to facilitate finding the latest company information for implants and devices.
- Price - \$89.00 plus shipping and handling**

**Magnetic Resonance Procedures: Health Effects and Safety** (Copyright 2001, CRC Press, Boca Raton, FL) - Written by 15 well-known experts in the field, this book is the most authoritative and comprehensive reference text on magnetic resonance bioeffects and safety. This textbook discusses the bioeffects of static magnetic fields, radiofrequency-induced heating, acoustic noise, the safety of metallic implants, the use of MR in pregnant patients, contrast agent safety, and handling patients with claustrophobia. In the wake of demands for increased patient safety and proper patient management along with the expanding use of MR procedures, this book is essential for all MR healthcare workers.

**Discounted price - \$120.00 plus shipping and handling (Regular price, \$134.00)**
